Cheyenne-Laramie County Health:

CLCHD continued to work on vaccinations at our in-house clinic and with community partners to support their clinics. Several upcoming clinics were finalized this week including the downtown clinic to be hosted next Monday-Wednesday. Sign-ups are still available for eligible residents over the age of 16. Starting Monday, April 12th, CLCHD's COVID-19 vaccine clinic will be in a new location at 614 S Greeley Highway. This move will allow us to serve 600-700 participants a day. Additionally, another one-day Johnson & Johnson vaccine clinic has been set up for Friday, April 16th. The sign up is available here, but spots are expected to fill quickly!

Across Wyoming, vaccines opened up to all residents over the age of 16 who wish to be vaccinated. It is important to remember which vaccines are eligible at various ages. Moderna and Johnson & Johnson both are approved for those 18 years of age and older. Pfizer is approved for those 16 years of age and older. The new clinic site will continue to serve vaccines eligible for those between 16 and 18 years of age.

Cheyenne/Laramie County Emergency Management:

EMA assisted CLCHD with PPE distributions and finalized work on After Action Reporting.

Cheyenne Regional Medical Center:

Per [data provided by CRMC to the state](#), on 3/26 CRMC had:

5 COVID positive patients
